TURTLE BEACH REPORTS SECOND QUARTER 2019 RESULTS

San Diego, CA – August 8, 2019– [Turtle Beach Corporation](#) (Nasdaq: HEAR) a leading gaming accessory brand, reported financial results for the second quarter ended June 30, 2019.

Second Quarter Summary vs. Year-Ago Quarter (where applicable):

- Net revenue was \$41.3 million (\$42.0 million in constant currency) versus \$60.8 million;
- Net loss of \$2.4 million, or \$(0.16) per share, compared to a net loss of \$2.3 million, or \$(0.17) per share;
- Adjusted EBITDA was \$1.6 million compared to \$9.8 million; and
- Repurchased approximately 156,000 shares for \$1.5 million, or an average of \$9.62 per share, as part of its \$15 million share repurchase program, which was announced April 10, 2019.

“Our second quarter marked another period of strong relative consumer demand for our market-leading portfolio of gaming products,” said Juergen Stark, CEO, Turtle Beach Corporation. “As we look at the console market and our position during the first half of 2019, as well as our growing presence in the PC gaming accessories market, things are tracking close to what we laid out in our initial outlook for 2019. This year is shaping up to be the second biggest year ever for console gaming headsets, second only to last year, and is driven by many new gamers remaining in the market and joining the headset upgrade and replacement cycle.

“Turtle Beach continues to lead the console headset market. Our growth in the PC gaming accessories market is going well, with our PC gaming headsets market share increasing significantly.

“Since completing the acquisition at the end of May, our integration of ROCCAT into the Turtle Beach organization proceeding well. We remain confident that the expertise of our ROCCAT PC team and the combination of the strong portfolio of PC gaming mice and keyboards, plus their PC gaming headsets and our own *Atlas* line of PC products, has us well-positioned to continue growing in this \$2.9 billion market.”

Second Quarter 2019 Financial Results

Net revenue in the second quarter of 2019 was \$41.3 million compared to \$60.8 million in the year-ago quarter. While consumer demand remains significantly above historic levels, this decrease was the result of the expected decline in demand from the record levels in the prior year driven by Battle Royale games. On a constant currency basis, revenue in the second quarter of 2019 was

Turtle Beach Reports Second Quarter 2019 Financial Results

\$42.0 million.

Gross margin in the second quarter of 2019 was 31.9% compared to 33.3% in the second quarter of 2018. This decrease was primarily due to product mix, a decline in volume-based fixed cost leverage as a result of the decrease in revenue, and increased refurbishing and warehouse costs, partially offset by a decline in freight costs.

Operating expenses in the second quarter of 2019 increased as planned to \$15.5 million from \$12.0 million in the 2018 period due primarily to \$1.6 million of ROCCAT transaction and related integration costs, incremental ROCCA operating costs, sponsorships and digital marketing spend, and an increase in non-cash stock-based compensation.

Net loss in the second quarter of 2019 was \$2.4 million compared to a net loss of \$2.3 million in the year-ago quarter, which included an unrealized loss of \$8.6 million on a financial instrument obligation. Exclusive of this unrealized loss, the loss was driven by lower gross profit because of the decline in revenue and the increase in operating expenses, partially offset by a decline in interest expense.

Net loss per share in the second quarter of 2019 was \$0.16 on 14.6 million weighted average shares outstanding, compared to a net loss per share of \$0.17 on 13.4 million weighted average shares outstanding in the year-ago quarter.

Adjusted net loss (as defined below in "Non-GAAP Financial Measures") in the second quarter of 2019, which excludes transaction and integration costs incurred related to the acquisition of the ROCCAT business, was \$0.9 million, or \$(0.06) per share, compared to net income of \$6.3 million, or \$0.40 per share, in the corresponding 2018 period.

Adjusted EBITDA (as defined below in "Non-GAAP Financial Measures") in the second quarter of 2019 was \$ million compared to \$9.8 million in the year-ago quarter.

Balance Sheet Highlights

At June 30, 2019, the Company had \$3.4 million of cash and cash equivalents with \$10.8 million of outstanding debt under its revolving line of credit. This compares to \$9.1 million of cash and cash equivalents and \$32.4 million of outstanding debt at June 30, 2018. The year-over-year debt reduction primarily resulted from the Company's improved operational performance, partially offset by the cash paid for the acquisition of the ROCCAT business in 2019.

2019 Outlook

The Company is maintaining its full year outlook.

	<u>2nd Half '19 Guidance</u>	<u>FY '19 Guidance Unchanged</u>
Net Revenue	\$154M - \$162M	\$240M - \$248M
GAAP EPS	\$0.76 - \$0.96	\$0.70 - \$0.90
Adjusted EPS	\$0.82 - \$1.02	\$0.90 - \$1.10
Diluted Shares	-	15.7M
Adjusted EBITDA	\$21M - \$25M	\$27M - \$31M

With respect to the Company's adjusted EBITDA outlook for the second half and full year 2019, a reconciliation to its net income (loss) outlook for the same periods has not been provided because of the variability, complexity, and lack of visibility with respect to certain reconciling items between adjusted EBITDA and net income (loss), including other income (expense), provision for income taxes and stock-based compensation. These items cannot be reasonably and accurately predicted without the investment of undue time, cost and other resources and, accordingly, a reconciliation of the Company's adjusted EBITDA outlook to its net income (loss) outlook for such periods is not provided. These reconciling items could be material to the Company's actual results for such periods.

Non-GAAP Financial Measures

In addition to its reported results, the Company has included in this earnings release certain financial results, including adjusted EBITDA and adjusted net income, that the Securities and Exchange Commission defines as "non-GAAP financial measures." Management believes that such non-GAAP financial measures, when read in conjunction with the Company's reported results, can provide useful supplemental information for investors analyzing period-to-period comparisons of the Company's results. "Adjusted Net Income" is defined as net income excluding integration and transaction costs related to the acquisition of the ROCCAT business and excluding the effect of the mark-to-market requirement of the financial instrument obligation. "Adjusted EBITDA" is defined by the Company as net income (loss) before interest, taxes, depreciation and amortization, stock-based compensation (non-cash), and certain special items that we believe are not representative of core operations (e.g., the integration and transaction costs related to the ROCCAT acquisition and the mark-to-market adjustment for the financial instrument obligation and). These non-GAAP financial measures are presented because management uses non-GAAP financial measures to evaluate the Company's operating performance, to perform financial planning, and to determine incentive compensation. Therefore, the Company believes that the presentation of non-GAAP financial measures provide useful supplementary information to, and facilitates additional analysis by, investors. The presented non-GAAP financial measures exclude items that management does not believe reflect the Company's core operating performance because such items are inherently unusual, non-operating, unpredictable, non-recurring, or non-cash. See a reconciliation of GAAP results to Adjusted Net Income and Adjusted EBITDA included below for the three months ended June 30, 2018. and
